

- Non tilting-magazine eliminates the hassle of filling from the top down, load product right where you need it.
- The empty weights lock out the vending cycle when the column is empty, customers can select another product or retrieve their coins.
- The separately locking cash box keeps you in control of the money while your attendant keeps the vender filled.
- The new mounting bracket makes hanging your vender quicker, easier and safer than before.
- Super Security Guards available for added security.
- Base available.

Base dimensions: 26" H x 32" W x 15" D
