Rear Load

Standard's BX Series Exchangers were designed to help self service business owners maximize profits, and provide more convenience for their customers. These Bill Exchangers essentially provide the same convenience as attended businesses change for higher denomination bills (like \$10's & \$20's) into lower denomination bills (like \$5's). Now you can break tens & twenties without hiring full-time or after-hours attendants. The BX Series machines feature heavy-duty cabinet construction with high security crank locks to help protect your investment.

The BX1000RL Changers feature:

- Rear Load configuration for Bill Exchange
- Pyramid™ APEX Bill Validator with 500 bill stacker (other acceptors available)
- Standard UniNote™ Bill Dispenser holds from 750 (used) up to 1,000 (new) bills
- Heavy gauge steel cabinets with solid welded seams & stainless steel faceplate
- Two Crank Locks with Medeco™ plugs
- High gloss powder-coated enamel paint finish with applied Lexan™ Graphics

Graphics

- Limited Two Year Warranty & ETL Certified in accordance with UL & CSA standards
